

BE Live5

Wireless Audiophile Earphones

NU FORCE

Live in the **music.**

Live in the music with the Optoma NuForce BE Live5 Bluetooth earphones. Featuring dynamic 8mm drivers that are 30% larger than in other earphones, the BE Live5 resolves crisp details and deep bass for balanced sound quality on-the-go. A new battery design enables a smaller form factor that places the earphone closer to your ears with angled ear nozzles for a comfortable and secure fit that keeps up with active lifestyles while delivering up to 8 hours of music enjoyment.

Features:

- **Audiophile Sound:** Lightweight aluminum and polycarbonate housings paired with large dynamic 8mm drivers – 30% larger than in other earphones – deliver crystal clear, audiophile sound. AAC and aptX support maximize audio quality for Apple and Android devices.
- **Durable & Lightweight:** Crafted aluminum adorns the BE Live5 for excellent durability with a touch of style. The premium metal is extremely rugged, yet lightweight to give the earphones a perfect combination of form and function.
- **Comfortable Fit:** A new battery design provides superior weight balance by placing the earphone closer to your ears for a more secure fit. Ear wings and ear tips enhance comfort and stability with superior noise isolation – a variety of sizes are included for personalized fitment, too.
- **8 Hours of Non-Stop Listening:** Enjoy up to 8 hours of music playback for non-stop listening that endures your active lifestyle.
- **Sweat Proof:** IPX5 water resistance ensures uninterrupted music playback for your active lifestyle.
- **Talk & Control:** An in-line remote makes it easy to control volume, media playback and activate Siri or Google Assistant without taking the phone out of your pocket.
- **Color Options:** Available in black or gold.
